

Girl Scout Cookie Partners

Cookie Partner Program gives girls and troops an opportunity to practice their entrepreneurship skills by reaching out to local business and organizations and secure a large cookie sale.

Girls and troops that want to participate will reach out to local businesses and organizations with a pitch about how a partnership can help the girls reach their Cookie Season goals.

This will build communication, sales, and relationship skills on top of the many entrepreneurship skills the Girl Scout Cookie Program teaches girls.

The Girl Scouts or troops who participate in this Girl Scout Cookie Partner Program will also receive a special Cookie Entrepreneur Patch.
