girl scouts of eastern iowa and western illinois

Mission Possible

Learn about the world of robotics!

Learn about what robots do, explore robot parts, planning a robot, and discover how robots help solve problems.

Girl Scouts will...

- ✓ Make a robot-themed snack
- ✓ Learn about algorithms and code an obstacle course
- ✓ Invent or build their own robot
- ✓ Share your robot's skills with friends!

Girl Scouts will complete the steps to earn all three Robotics badges for their grade level!
